## EDUCATION

2013 - 2019

**PRESIDENT RAMON MAGSAYSAY  
STATE UNIVERSITY**  
former Ramon Magsaysay Technological  
University (RMTU)

- BS Computer Engineering

## SKILLS

### Frontend:

Angular, TypeScript, Javascript, RxJS,  
NgRx, SCSS

### Backend:

Spring Boot, Node.js, Express, NestJS

### Database:

PostgreSQL, MongoDB

### Cloud & DevOps

AWS (CloudWatch), Docker, Jenkins  
CI/CD

### Tools:

Git, Docker, REST APIs, Jest, Agile,  
Jira, Chat GPT, Copilot, Claude Code,  
Mid Journey

## LANGUAGES

- English (Fluent)
- Filipino (Native)

# GERSON TIONGSON

## FULL STACK ENGINEER

### PROFILE

Full Stack Engineer with 5+ years of experience in Angular, RxJS, and NgRx, plus hands-on backend experience in Java Spring Boot, Node.js, NestJS, PostgreSQL, and MongoDB. Delivered enterprise-scale, multi-region applications with support from Docker, Jenkins CI/CD, and AWS CloudWatch. Accenture-certified Full Stack Developer, currently expanding AWS expertise toward a Cloud Engineer role.

### WORK EXPERIENCE

#### Accenture Philippines

2023- PRESENT

Advanced App Engineering Analyst

- Delivered and supported production releases across multiple countries, ensuring zero-downtime deployments and resolving critical issues in real time
- Developed scalable Angular applications using RxJS and NgRx for high-traffic enterprise systems
- Contributed to backend microservices using NestJS, deployed via Jenkins CI/CD, and monitored application health through AWS CloudWatch
- Integrated third-party APIs and payment gateways, handling complex asynchronous data flows
- Collaborated with cross-functional global teams to deliver features on schedule in Agile environments

#### Grosvik Philippines

2021- 2023

Junior Frontend/Angular Developer

- Developed scalable Angular applications with reusable, responsive components, ensuring code quality and performance through Git-based workflows and reviews

#### Senior High School —

2019 - 2022

#### Computer Programming Instructor

- Taught programming fundamentals, computer systems, and applied computer science concepts to senior high school students
- Developed lesson plans and assessments covering core computing principles

### PROJECT EXPERIENCE

March 2024 - April 2026

#### Samsung (Client Project)

- Developed and maintained reusable Angular components for enterprise-scale applications
- Implemented unit testing using Jest to ensure code quality and reliability
- Participated in code reviews and enforced development standards

#### YelpCamp — Full Stack Web Application

Angular · Node.js · Express · MongoDB · NgRx · MapTiler · Cloudinary

Live Demo: <https://yelpcamp-5u6m.onrender.com>

- Built a full-stack web application with authentication, CRUD functionality, and RESTful API integration
- Implemented reactive state management using NgRx and RxJS for scalable frontend architecture
- Integrated third-party services including MapTiler (maps) and Cloudinary (image uploads), and deployed on Render

#### NavTask — Full Stack Task Management Application

Angular · NgRx · Spring Boot · PostgreSQL · JWT · OAuth2

Live Demo: <https://todoapp-client-i8uq.onrender.com>

- Developed a full-stack task management system with secure authentication (JWT, OAuth2) and RESTful APIs using Spring Boot
- Implemented scalable frontend architecture using Angular, NgRx, and RxJS for reactive state management and complex UI workflows
- Designed features including task prioritization, subtasks, file attachments, and responsive UI, deployed on Render

### PROFESSIONAL HIGHLIGHTS

- Full Stack Developer Certification — Accenture Song, June 2026
- JavaScript & Front-End Development — Upwork, August 2024
- Claude Code AI Trainer — Anthropic · Aligner Platform, 2026
